APPROPRIATE FOR THE CONTENT

You are about to finish your doctoral thesis or have it already finished and now you consider publishing it. You are looking for a publishing house to release your work as a high-quality book, on appropriate conditions. A book that is easy to read and that you like to hold in your hands. If this is what you are looking for then **Solivagus-Verlag is the right partner for you.**

We are convinced that a sophisticated content needs an appropriate form. We also support you in distributing your book by active promoting and with help of national and international reviews.

EXEMPLARY SETTING,

technically impeccable tables, professionally edited figures make your own demand on your work not only visible but also literally readable. The design reveals much of the content, it supports the reception of your work significantly and eloquently, but at the same time it allows you to have your say. Our well-trained typesetters do all the technical work for you – whereas in other publishing houses for academic publications you are asked to provide a ready-made print file yourself, for the same printing cost subsidy or even more. To support researchers at the department of medieval studies we will neither take printing cost subsidies nor any kind of subventions for publishing Ph.D. thesis incurred at the CEU.

Our non-binding offer says less than 1000 words.

We let you talk.
